Because or Confused

I feel so confused
because I want you so much
it's just that I can't resist you
It's not enough to say that I miss you
I feel so confused right now
I need you so much somehow
I can't forget you
I've gone crazy from the moment I met
you

Reading or Technology?

Do you mind?
I'm obviously like texting on my totally awesome new cell phone
Wait a sec
I've got a call waiting
Oh well, I can text and talk at the same time.

Uh, do you mind?
I am trying to read a book
In addition, I prefer to read a book without any technology distractions
Now is you will excuse me, I am trying to read a book.

Sorry?
Not really but like OMG, that guy is so annoying
I mean, come on, he like wants to read a book
Hold on a sec
OMG, I have 125 new e-mails
Now, I am like totally texting, talking, and e-mailing at the same time.

Oh my gosh!
I completely dislike technology
Ugh!
Now if you do not mind, and I hope you do not, I am going to read a
book

By reading, I gain many important things
Such as: knowledge, proper speech, and a great way to spend time.

If you do not mind, I will finish reading my book!

Mind Grapes By Montana

Top 5 Albums of the Last Year

1. Keane: *Perfect Symmetry*: This is Keane's third album, and it's the first that they've used the guitar. So, yes, their sound changed a considerable amount this time around. But for the better? Well, yeah. Why else would it be number one on the list? PS. Tom Chaplin's (lead singer) vocals always make me swoon with an uncontrollable fangirl squeal. And there are definitely no exceptions in this album. Key Track: Black Burning Heart

2. Coldplay: *Viva La Vida or Death and All His Friends*: When I heard the first single entitled Violet Hill, my initial reaction was a long series of nonsense words, along with a constant stream of drool emerging from my mouth. I couldn't comprehend what this new Coldplay sound was doing to my brain. It was like my eardrums were trying to hug my heart. Viva la Coldplay. Viva la everything about this album. Key Track: Violet Hill

3. Death Cab For Cutie: *Narrow Stairs*: Have a heart? Have a sense of hearing? Then buy this album. Death Cab is a band based entirely around broken relationships. So I'd like to take the time to thank everyone who has broken Ben Gibbard's heart... Is that bad? I don't care. Thank you anyway, ladies. Key Track: Your New Twin Sized Bed

4. Radiohead: *In Rainbows*: I can't even begin to describe the mesmerizing effect that this album has on me. It's completely bizarre... and I wouldn't want it any other way. Key Track: Nude

5. The Fray: *The Fray/Snow Patrol: A Hundred Million Suns*: Yes, I'm a complete cheater by not being able to choose just one. But honestly, go listen to both of these albums and try to choose between the two. Go ahead. I dare ya. Key Track: The Fray: Syndicate/Snow Patrol: Lifeboats

Check out the iPods in the Teen Zone to listen to these albums and songs.
