AFLAC GROUP HOSPITAL INDEMNITY

INSURANCE PLAN 1

Policy Series CA18500CO

The plan that can help cover expenses and protect your savings.

Does your major medical insurance cover all of your bills?

Even a minor trip to the hospital can present you with unexpected expenses and medical bills. And though you may have major medical insurance, your plan may only pay a portion of what your entire stay entails.

That's how the Aflac group supplemental hospital indemnity insurance plan can help.

It provides financial assistance to enhance your current coverage. So you can avoid dipping into savings, or having to borrow to cover out-of-pocket-expenses health insurance was never intended to cover. Like transportation and meals for family members, help with child care or time away for work, for instance.

In addition to providing you with cash benefits (unless otherwise assigned) during a covered hospitalization, Aflac's group supplemental hospital indemnity plan has been designed with much more in mind, such as:

- No deductibles.
- No networks, which means you can be treated at the hospital of your choice.
- No precertification.

Understanding the facts can help you decide if the Aflac group Supplemental Hospital Indemnity plan makes sense for you.

Benefits Overview

PLAN 1

HOSPITAL CONFINEMENT

(up to 180 days per confinement)

This benefit is paid when a hospital confines a covered person as a resident bed patient. An injury or covered sickness must cause the confinement. Payment is subject to any elimination period. To receive this benefit for an Injury, the covered person must be confined to a hospital within six months of the date of the covered accident.

The hospital confinement benefit is payable for a maximum of 180 days for any one covered sickness or covered accident. The hospital confinement benefit is payable for only one hospital confinement at a time, even if more than one covered accident, covered sickness, or both cause the confinement.

If a covered person is not confined to the hospital for a full month, we will pay benefits on a daily basis. This benefit is payable up to 180 days per confinement.

We will pay benefits for only one confinement in a hospital intensive care unit at a time, even if it is caused by more than one Covered Accident, more than one Covered Sickness, or a Covered Accident and a Covered Sickness. If we pay benefits for confinement in a hospital intensive care unit and a Covered Person becomes confined to a hospital intensive care unit again within six months because of the same or related condition, we will treat this confinement as the same period of confinement.

PRE-EXISTING CONDITION LIMITATION

Pre-Existing Condition is a sickness or physical condition that resulted in the Insured's receiving medical advice or treatment within the 12-month period before his effective date.

We will not pay benefits for any loss or injury that is caused by, contributed to, or resulting from a pre-existing condition if that pre-existing condition started within 6 months of an insured's effective date.

We will not reduce or deny a claim for benefits for loss caused by a pre-existing condition that starts after 6 months from an insured's effective date.

Pregnancy is a pre-existing condition if conception was before the effective date of a certificate and will therefore not be covered. However, pregnancy will be covered like any other sickness when the date of conception is after the insured's effective date of coverage.

If a certificate is issued as a replacement for a certificate previously issued under the plan, then the pre-existing condition limitation provision of the new certificate applies only to any increase in benefits from the prior certificate. Any remaining period of pre-existing condition limitation of the prior certificate would continue to apply to the prior level of benefits.

Treatment is the consultation, care, or services provided by a physician. This includes receiving diagnostic measures and taking prescribed drugs and medicines.
