

CITY COUNCIL AGENDA MEMORANDUM,

To: Mayor and City Council
 From: Charles Ozaki, City and County Manager
 Prepared by: Kevin Standbridge, Deputy City and County Manager
 Pat Soderberg, Finance Director
 Joyce Alberts, Budget Manager
 Valerie Price, Accounting Manager

Meeting Date	Agenda Category	Agenda Item #
March 8, 2016	Manager's Report	13(b)

Agenda Title:	Budget Tracking and Revenue Reports – December 2015
----------------------	--

Summary

The purpose of this report is to provide a high-level monthly status update on revenues and expenditure performance compared to the adopted budget and the same period of the prior year. Attached is a summary of all financial activity for December 2015. The reports reflect the revised 2015 budget amounts adopted by Council on October 13, 2015. Highlights for each major fund group follow below, with additional detail and explanation in the remainder of the report.

BUDGET TRACKING REPORT

General Governmental Operating Funds (Attachment 2)

- The ending fund balance for the General Governmental Operating Funds, as of December 2015, totaled \$7,424,356 which is \$4.2 million more than the budgeted amount. This is due to higher than projected revenues and unspent expenditures.
- Total 2015 revenues for General Governmental Operating Funds year-to-date, through December, were 0.9% more than budgeted levels and 4.6% more than 2014 revenues. The variance in several tax revenue accounts is the basis for the majority of the increase from the prior year. See comments below.
- Sales tax revenues year-to-date were 2.2% (\$602,095) less than budgeted levels and were 11.4% (\$2,682,566) higher than 2014 actual amounts.
- Property tax revenues were 1.7% (\$462,382) more than budgeted and 1.1% (\$298,616) more than collected in 2014.
- Building Use Tax revenues were 23.0% (\$442,081) more than projected through December 2015, and 6.2% (\$156,143) lower than they were for the same period in 2014.
- Total 2015 operating expenses, year-to-date through December, were 4.1% less than budgeted levels and 3.1% higher than the same period of 2014. The 2015 unspent budget amount is primarily due to lower than anticipated costs in Supplies, Professional Services, Repair and Maintenance, Human Services client benefits, Other Expenses (which includes Training, Printing, Postage, Dues/Subscriptions, and Rental costs) and Operating Equipment.

Utility Operating Funds (Attachment 3)

- Total operating revenues through December 2015 are 1.4% (\$343,380) higher than budgeted estimates and 2.5% (\$626,078) more than 2014.
- Operating expenditures for 2015 year-to-date were 5.6% (\$1,175,401) less than the projected budget and were 3.3% (\$631,026) more than 2014. The variance from 2015 projections is due primarily to savings in chemicals, insurance accounts, and repair and maintenance.

Capital Funds (Attachment 4)

- Through December, 59.9% of the General Governmental Capital Budgets and 27.5% of the Utilities Capital Funds have been spent. These relatively low percentages are typical, given the requirement to fund the entire cost for multi-year projects before the construction contract can be signed; unspent project balances will be rolled into 2016 by a budget amendment. More detailed information on the status of selected projects currently under construction is included on the monthly Manager's Report, presented to City Council in a separate agenda item.

Trust Funds (Attachment 5)

- Interest revenue and benefit payments for the pension plans are reported to Broomfield by the plan administrator on a quarterly basis and posted to the accounts in the month following the end of each quarter. Year-to-date benefit payments reflected on the report are slightly less than the same period in 2014. In the third quarter of 2015, the market value of the investments held by the plan participants sharply declined resulting an approximate \$3 million (3%) net loss; however, by year end the market recovered all of the loss and showed a slight year-to-date gain of \$275,131.

REVENUE REPORT

- Annual sales tax revenues (including operating and capital funds) for 2015 showed a 0.58% increase from the 2015 projected amount, and were 3.08% higher than 2014 collections for operating and capital governmental type funds, resulting in total sales tax revenue of \$296,971 more than projected in the 2015 Amended Budget.
- All General Operating Governmental type revenue through December (including transfers) was 0.40% less than projected for 2015 and 3.67% more than 2014; resulting in total revenue of \$427,191 less than projected.

Prior Council Action

Council has received monthly financial updates at Council meetings since 2009.

Financial Considerations

Based on the reports, actual expenditure activity for 2015 fell within the budgeted amounts, at the fund level.

N/A

Proposed Actions/Recommendations

Staff would appreciate any comments or feedback regarding these reports.

BUDGET TRACKING REPORTS

These reports present the financial results for the period ending December 31, 2015. The budget tracking reports display the revenue and expenditure for all types, by fund type. The General Governmental Operating Funds report, Attachment 2, includes the City and County General Fund, Streets Fund, Recreation Fund, Library Fund, Facilities Fund, Lodging Tax Fund and Health and Human Services Fund. The Utility Operating Funds report, Attachment 3, presents the results for Water, Sewer, and Reuse Water funds that rely on Service Usage Charges to support expenditures. The Capital Funds report, Attachment 4, shows the current year activity for all projects summarized by project category for the General Governmental Capital Funds and the capital portion of the Utilities Fund, as well as Debt Service activity associated with capital activities. The Trust Funds report, Attachment 5, shows the information for the Health Insurance fund and the Employee Retirement funds. There is also a summary "All Funds" report, Attachment 1, which combines all financial activity for the City and County. All the reports have been updated to reflect the 2015 Amended Budget, as adopted by Council on October 13, 2015.

All Funds (Attachment 1) Highlights:

- This report shows the December 2015 revenues and expenditures grouped by each category of funds.
- The shaded lines noted in each fund category report the net results before other sources/uses of funds associated with each fund grouping are considered.
- More detailed information is presented for each category of funds, based primarily on sources of revenue, on the reports included as Attachments 2 through 5.

General Governmental Operating Funds (Attachment 2) Highlights:

- General Governmental Operating funds are those over which the City Council has the most discretion and are most subject to changing economic conditions. These are also the funds that provide most basic governmental services.
- Overall, the unaudited General Governmental Operating Funds ending balance at December 2015 totals \$7,424,356. This amount is \$4.2 million more than the amount projected for the 2015 year-to-date Budget. This is due to higher than anticipated revenues lower than projected expenses. The ending balance reported here is in excess of reserves, which are tracked separately, and are targeted to be at least 16.67% of budgeted expenditures.
- Total 2015 revenues in the General Governmental Operating Funds were 0.9% more than budgeted levels and 4.6% more than 2014 revenues. Sales tax revenues were 2.2% (\$602,095) less than budgeted levels and were 11.4% (\$2,682,566) higher than 2014 actual amounts.
- Property tax revenues were 1.7% (\$462,382) more than budgeted and 1.1% (\$298,616) more than collected in 2014.
- Combined growth-related revenues for the year (the sum of the amounts shown in the rows labeled "Use Tax – Building Materials" and "Licenses and Permits") were 13.49% (\$603,666) more than budget projections, and were 5.97% (\$322,451) less than 2014 receipts. Activity for single family homes to date is lower than experienced in 2014; 379 permits valued at \$134 million, as compared to 437 permits valued at \$152 million in 2014. Additionally, activity for apartment/condominiums is lower than experienced in 2014; 14 permits valued at \$27 million in 2015, as compared to 23 permits valued at \$60 million in 2014.
- Operating expenses in 2015 were 4.1% less than the budgeted amount and 3.1% more than the 2014 amount. The 2015 unspent budget amount is primarily due to lower than anticipated costs in

Supplies, Professional Services, Repair and Maintenance, Human Services client benefits, Other Expenses (which includes Training, Printing, Postage, Dues and Subscriptions, and Rental costs).

- Supplies costs had a savings of 21.5% from 2015 budget projections partially due to lower than expected fuel and street de-icer expenses.
- Operating equipment costs were 53.4% less than projected and 65.7% less than in 2014. The unspent 2015 amount is due to the timing of Health and Human Services vehicles and equipment purchases. It is anticipated that these purchases will happen in a future year. The 2014 variance is due to budgeted vehicle purchases for the Parks department and equipment in the Police department in 2014.

Utility Operating Funds (Attachment 3) Highlights:

- Utility Operating Funds are funded by water and sewer user fees, which cannot be used for any purpose other than their designated utility. This report presents the operating revenues and expenses for the Water, Sewer, and Reuse Water Utility Funds.
- Overall, total actual operating revenues in December of 2015 are 1.4% (\$343,380) higher than budgeted estimates and are 2.5% (\$626,078) more when compared to 2014. Revenues from Charges for Services were 0.8% (\$175,865) less than projected and 1.4% (\$311,208) higher than the year-to-date period through December of 2014 for water and sewer usage service charges.
- Operating expenditures for 2015 year-to-date were 5.6% (\$1,175,401) less than the projected budget and were 3.3% (\$631,026) higher than 2014. The variance from 2015 projections is due primarily to savings in chemicals, the timing of the FEMA 2013 Flood repair project in the insurance/uncovered losses account, and repair and maintenance.
- In order to issue contracts for capital projects, the budgets for those projects must be fully funded in the year they are expected to be started, even if it is anticipated that they will not be completed in that year. There are several operating capital projects in progress that are anticipated to be multi-year projects. In 2015, the Water Capital Repair and Maintenance expended 48.3% of it's budget, the Sewer Capital Repair and Maintenance expended 46.3% of it's budget, and the Reuse Water Capital Repair and Maintenance expended 96.5% of it's budget

Capital Funds (Attachment 4) Highlights:

- This attachment presents the revenue and expenditures for the Capital Improvement Plan projects (and related debt service) for both the General Governmental Funds and Utilities Funds. Capital projects must be budgeted for the full amount in year one, even for multi-year projects, so that contracts can be awarded for the project. On multi-year projects, amounts not spent in the current year will roll forward into future budget years until the project is completed. This often results in large discrepancies between budget and actual figures.
- Through December 2015, 59.9% of the General Governmental capital budgets and 27.5% of the Utilities capital budget has been expended. More detailed information on the status of selected projects currently under construction is included on the monthly Manager's Report presented to City Council.

Trust Funds (Attachment 5) Highlights:

- This report presents the revenue and expenditures for the following five trust funds: Health Insurance Fund, Employee Defined Benefit Pension Fund, Employee Money Purchase Retirement Fund, Police Defined Benefit Pension Fund, and Police Money Purchase Retirement Fund.

- Interest revenue and benefit payments for the pension plans are reported to Broomfield by the plan administrators on a quarterly basis and posted to the accounts in the month following the end of each quarter.
- The year-to-date Benefit Payments were 0.6% (\$78,193) less than budgeted and 2.9% (\$386,447) less when compared to December 2014.
- In the third quarter of 2015, the market value of the investments held by the plan participants sharply declined by \$6 million, resulting an approximate year-to-date \$3 million net loss. However, by year end 2015 the market had recovered all of the loss and showed a slight year-to-date gain of \$275,131.

REVENUE REPORT

Attachment 6 Highlights:

- The Revenue Report tracks the most significant revenues that benefit General Governmental Funds (operating and capital) and Utilities Funds in greater detail than the budget tracking reports.
- Annual sales tax revenues (including operating and capital funds) for 2015 showed a 0.58% increase from the 2015 projected amount, and were 3.08% higher than 2014 collections for operating and capital governmental type funds, resulting in total sales tax revenue of \$296,971 more than projected in the 2015 Amended Budget.
- Year-to-date Use Tax on Building Materials was 18.96% more than budgeted and 4.20% less than collections through December of 2014. Building Permit Fees are 5.29% more than projected and 3.99% less than 2014. As noted previously, this is reflective of the construction activity that was occurring in each of those time frames.
- All General Operating Governmental type revenue through December (including intrafund transfers) was 0.40% less than projected for 2015 and 3.67% higher than 2014; resulting in total revenue of \$427,191 less than projected.
- Total Enterprise (Utilities) Fund Revenue for both Operating and Capital activities, through December, was 6.00% more than projected and 7.60% more than 2014. The higher revenues are due mainly to the increase in water and sewer license fee revenues.

Net Sources/Uses of Funds (1)	\$ (76,290,367)		\$ 10,838,647			

(1) In governmental budgeting, particularly in capital funds, it is not unusual for the total net sources/uses of funds in a given year to reflect an overall decrease (net use of funds). This is the result of planned utilization of fund balances to cover expenditure of funds for current year needs (this may include one-time operating costs for implementation of enhanced services or spending for large capital projects). For the 2015 revised budget, beginning fund balances of \$266,616,346 are projected to decrease \$76,290,367 - as shown in the 2015 Revised Budget Column above - resulting in a projected ending fund balance of \$190,325,979.

* Modified Cash Basis.

* Monthly collections have not shown a repeatable pattern. The 2015 monthly budget estimates for residential and add-on construction were projected as if revenues are received equally each month. Multi-family and new construction projects have been included in the month the project is estimated to pull the permit.

* The first property tax collections occur in February of each year.

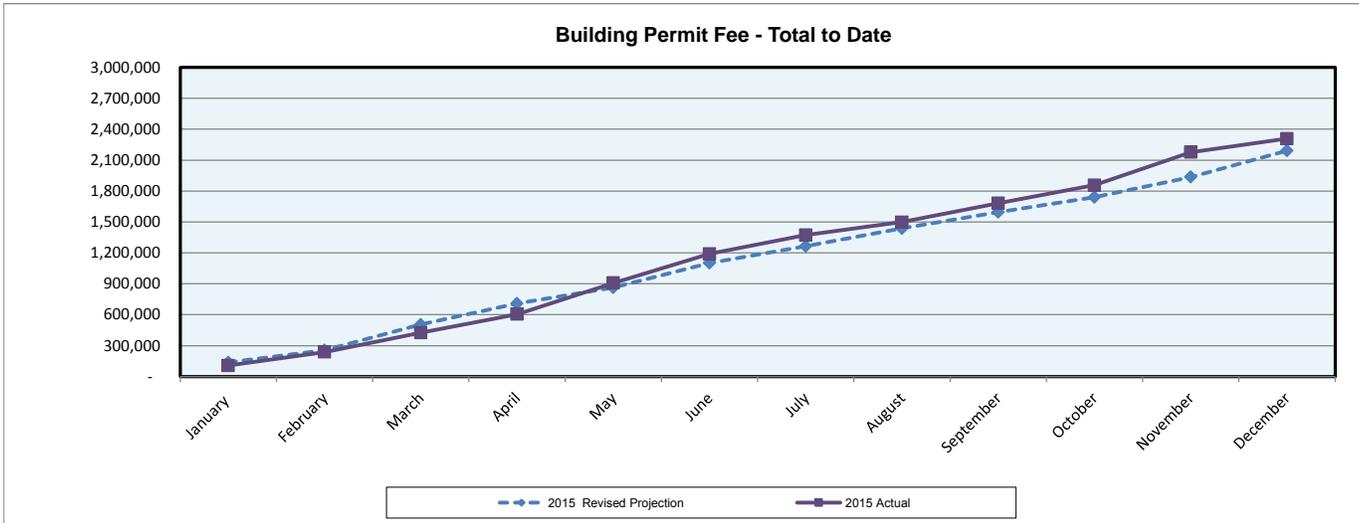

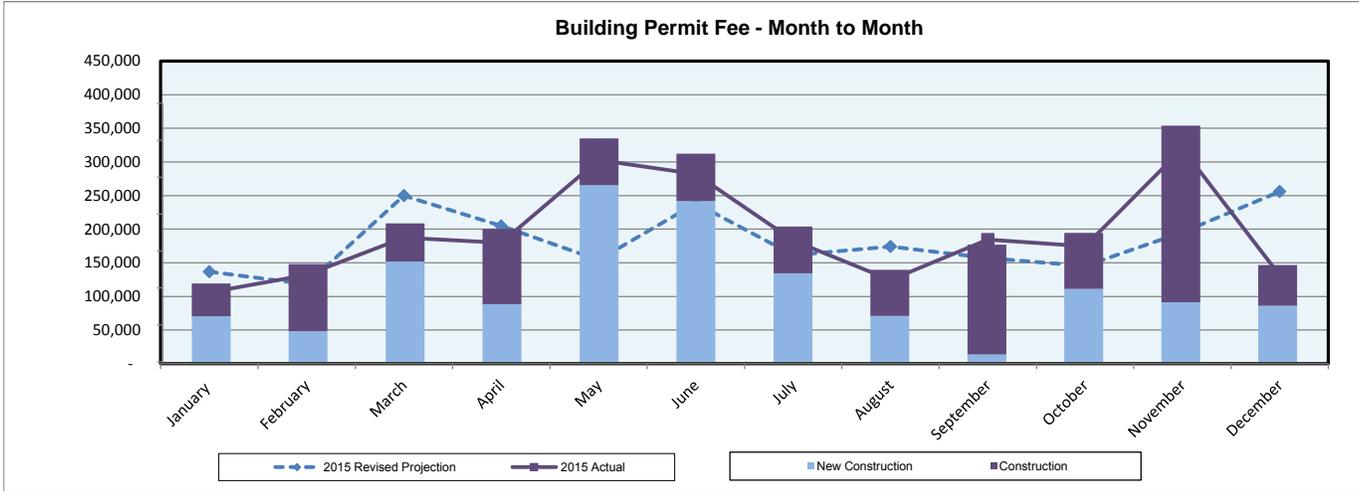

* Negative amounts reflect abatements.

* The revenues associated with Property Taxes are set each year by assessed valuation and mill levies. The total amount projected on an annual basis should remain at the original budgeted amount unless valuation adjustments are made through the Assessor's Office resulting in tax abatements from original amounts due. Final payments for the year are due by June 30th.

* Modified Cash Basis.

* Monthly collections have not shown a repeatable pattern. The 2015 monthly budget estimates for residential and add-on construction were projected as if revenues are received equally each month. Multi-family and new construction projects have been included in the month the project is estimated to pull the permit.

* Modified Cash Basis.

* Monthly collections have not shown a repeatable pattern. The 2015 monthly budget estimates for residential and add-on construction were projected as if revenues are received equally each month. Multi-family and new construction projects have been included in the month the project is estimated to pull the permit.
